Purok Evergreen Macalaya, Castilla, Sorsogon (4713)

PROFILE

Motivated IT graduate with solid knowledge in front-end and back-end web development. Willing to learn new technologies and excited to gain experience creating user-friendly websites while growing with a dynamic team.

EXPERIENCE

Internship at StraStan Solutions Corp. (Backend Developer)

SolutionsChapter, 2025

- Worked extensively with AWS infrastructure to deploy and maintain a Content Management System (CMS) for SolutionsChapter.
- Developed backend functionalities and integrated DynamoDB to support dynamic content management and provide high performance at scale.
- Designed and implemented REST APIs to facilitate smooth communication between the frontend and backend systems, ensuring data consistency and reliability.
- Contributed to customer-facing features by collaborating closely with UX/UI teams to integrate APIs and deliver seamless user experiences.
- Leveraged AWS services for scalability, performance optimization, and secure API deployments, ensuring robust security and reliable uptime.

SKILLS

Programming & Frameworks

PHP (Laravel), JavaScript, HTML5, CSS3, Bootstrap

Database & Server Tools

MySQL, Database Management, REST APIs

Development Tools

Git, GitHub, AWS Lambda, DynamoDB, API Integration.

PROJECTS

AgTech Web App (2024–2025): AgTech is a platform designed to connect farmers and traders conveniently. It enables users to purchase livestock, including pigs, chickens, and chicken eggs, directly from local farmers in Albay Province. By fostering direct connections, AgTech supports local livestock market visibility, transparency, and opportunities.

University Student Council (USC) Website (2024–2025): The University Student Council (USC) Website is a dedicated platform designed to enhance transparency, accessibility, and engagement within the university community. This innovative website provides students with convenient access to essential documents, including financial reports, accomplishment records, and meeting minutes, ensuring full transparency in council operations.

Unboxed E-Commerce Platform (2024): an e-commerce platform for showcasing personal brand.
